About the Speaker

Dr. Otsuka Atsushi

DDS, Ph.D., M.D., Ph.D.

Graduated Tokyo Dental College, Tokyo, Japan

Lecturer, Dept. of Orthodontics of Tokyo Dental College

Regular member of Japan Orthodontic Society

Private practice, Otsuka Orthodontic Clinic, Okayama, Japan

Inventor of the Preortho

Chief Clinical Consultant of the PreOrtho Orthodontic Treatment

Key speaker of the PreOrtho Orthodontic Treatment

Synopsis

In a nutshell, it refers to an orthodontic treatment method itself that uses a 'functional mouthpiece-type orthodontic device' to correct the maxillary and mandible, and also conducts training on oral muscle functions using the device at the same time. It is not a traditional full orthodontic treatment using a fixed multi-bracket device but an innovative treatment aimed at practical 'tooth alignment' and 'occlusion'.

This is a seminar to master the correct use of the device.

Why put in the device and close your mouth?

Why focus on the way the tongue is used?

We will provide eye-opening insights.

The 'Preortho' mouthpiece does not require taking a dental impression, can achieve sufficient effects just by wearing it at home, and has many features, such as encouraging mouth breathing to nasal breathing, which parents are most concerned about.

Program Timetable

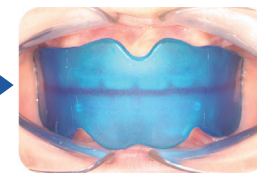

9:30 - 10:30	The Basics of Preortho
10:30 - 10:40	Coffee break
10:40 - 12:00	The mechanism of Preortho
12:00 - 13:00	Lunch break
13:00 - 14:00	Clinical case report
14:00 - 14:30	Coffee break
14:30 - 16:00	Clinical case report about Class I, II, and III
16:00 - 16:10	Coffee break
16:10 - 17:00	Clinical case study
