*The New Movement In Orthodontics*<sup>™</sup>

# Born From Dedication Built For Performance

## Introducing the *Carriere SLX 3D* Bracket System

When HSO's highly acclaimed engineers teamed up with world-renowned Orthodontists, **Drs. Luis Carrière, Lou Chmura, Dave Paquette and Jep Paschal**, they produced an all-new, patent-pending metal and ceramic bracket system that goes beyond the boundaries of any bracket system we've ever produced. The dedication to practice efficiencies and to advancing the state-of-the-art of patient care will be evident when you experience the beauty, comfort, and the extraordinary performance of the all-new **Carriere® SLX 3D™ System**.

### DON'T BEND WIRE, LIKE A PRO

With proven and precise torque values, in/out thicknesses and slot depths, the **SLX 3D Bracket** is designed to ensure less wire bending so you can spend more time doing anything but wire bending.

- **Wide:**  
Centrals & cuspids
- **Medium:**  
Bicuspids
- **Narrow:**  
Lower & upper laterals

### ONE SIZE DOESN'T FIT ALL

The **SLX 3D Bracket System** has narrow brackets for narrow teeth, and wide brackets for wide teeth - because size matters when it comes to rapidly securing rotational control and ideal tooth positioning.

### DO THE TWIST

With a feather touch and slight twist of the instrument, the slide is propelled to the open and locked position.

### GOT YOU IN OUR SIGHTS

Our proprietary, cross-hair color coding provides a new level of visual cues for fast, precise bracket positioning.

### COVER IT UP

Full M/D slot coverage provides unmatched rotational control, to help ensure that you finish faster.

#### Clear

Mushroom shaped pylons for secure retention

### GUARD RAILS AREN'T JUST FOR HIGHWAYS

Our exclusive **Adhesive Guard Rail™ Technology (AGR)** directs excess adhesive to the sides for fast, easy clean up.

### EASY ON, EASY OFF

Our compound contour bases are designed to "fit like a glove", while the beveled base edges aid in quick and clean removal.

#### Metal

Micro-etched pylons

## SAGITTAL FIRST YOUR ULTIMATE SUCCESS FORMULA

This new treatment paradigm eliminates competing force vectors and minimizes patient compliance issues inherent in traditional Class II or Class III correction. Implement **MOTION 3D™** with every case, all day, every day.

*MOTION 3D is available in clear and colors!*

*"SLX 3D represents nothing less than a true engineering and design phenomena. Whether you're using another self-ligating system, or twin brackets, when you try SLX 3D, you too will be convinced it's time to switch."*

**– Dr. John Graham**

*"Tighter tolerances, no miss bracket placement, and all-new efficiency features - the engineers and designers of the SLX 3D system have literally reinvented bracket design. "*

**– Dr. Dave Paquette**

**GET HOOKED**

Integrated hooks (standard on cuspids, optional on bicuspids) are designed for comfort and security of auxiliaries.

**FEEL THIS**

The smoothest brackets we've ever made. Oh so incredibly smooth, oh so comfortable.

# Unmatched Clinical Control Unparalleled Patient Comfort

We didn't just ask for your input, we listened, and produced a comprehensive system of technologically advanced brackets, buccal tubes, innovative instruments, and even the most intuitive and attractive packaging ever - a complete system that is certain to thrill even the most critical clinician, staff member, and patient in your practice.

Our proprietary new **EZ Twist™** feature brings a new level of staff joy and patient comfort to your practice. For fast, comfortable wire changes, **JUST DO THE TWIST!**

- **EZ Twist** self-locking and standard instruments bracket placement tool with "mm" markings
- EZ Slide opening
- EZ Clean up
- EZ Placement of **MOTION 3D™** Appliances

201-508 Carriere SLX 3D EZ Twist Opener Tweezer

201-509 Carriere SLX 3D EZ Twist Opener Reverse Tweezer

**SLX 3D Self-ligating Buccal Tubes** incorporate all of the amazing features of **SLX 3D** Brackets to complement the revolutionary appliance system.

Another HSO first-**clear ceramic upper first molars**. Now your patients can smile all day, every day, with confidence, with the most cost-effective, complete aesthetic solution available.
