8 Integrated Apps for Your Digital Workflow

Synopsis

Join us for an exclusive one-day course led by the esteemed Dr. Joel Teles, a master in high-aesthetic and digital dentistry with over three and a half years of experience with the TRI matrix® Implant system.

Dr. Joel Teles will share insights from his own evolution in digital implantology, showing straightforward cases from high-aesthetic single crown restorations to complex full-arch restorations. He will unveil the secrets to achieving unparalleled precision and excellence in every procedure.

Learning Objectives

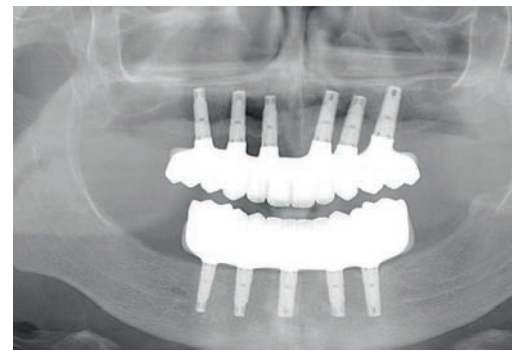

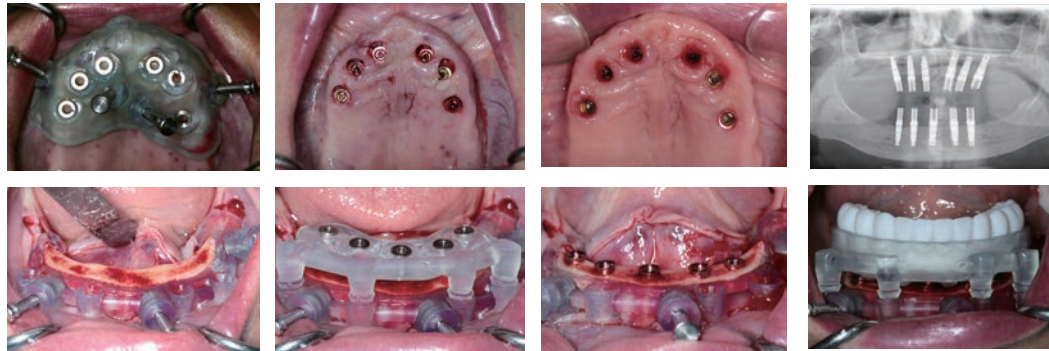

- ✗ Mr. Holger Kast will introduce the TRX Full Guided System, offering participants a profound understanding of its unique features and capabilities.
- ✗ Hands-On Exploration: Participants will have the opportunity to understand the advantages of a novel multilevel implant placed in an aesthetically zone with guided procedure by Dr. Joel Teles.
- ✗ Dr. Joel Teles will share his tissue management techniques to achieve the highest aesthetic outcomes from day one of implantology.
- ✗ The outstanding "Scan and Smile in One Hour" session will demonstrate the possibilities of chairside 3D printed temporary restorations in combination with the digital design service of TRI®.

Educational Impact

- ✗ Learn how digital workflows simplify your dental practice.
- ✗ Discover how the "Scan and Smile in 1 Hour" technique, combined with an in-house 3D printer, can create immediate aesthetics for your patients.
- ✗ Understand how the unique fully guided TRX guide can speed up your implant workflow.

Guided full-arch restoration with a 100% digital workflow by Dr. Joel Teles
